KAMAL KORANGA

in LinkedIn | 📱 +91 7505249004 | ✉ kamalkoranga@duck.com | ⌂ GitHub

Skills

- HTML | CSS | Bootstrap | JavaScript | React
- C | Python | Flask | Flutter | SQL
- Open Source | Docker | Git | GitHub | CI/CD

Experience

| **App Developer** | **SDC [Android]** | **09/2023 - 0fi/2024** |

- Member of Software Development Cell [Android] in GEHU, Haldwani.
- Building full stack apps in flutter.

| **Volunteer** | **GDSC** | **fi2/2023 - fi0/2024** |

- Volunteer at GDSC GEU (currently GDG).

| **Contributor** | **OpenCodeEra** | **fi0/2023 - 06/2024** |

- Contributor at OpenCodeEra.
- Contributed at frontend part of a website using HTML, CSS, JavaScript and Bootstrap.
- Reviewed other's pull requests, code, and changes.

Education

| **Bachelor of Technology** | **Graphic Era Hill University** | *Haldwani, UK, India* | **08/2023 - Current** |

- Major in Computer Science Engineering

Projects

- **codehub:** Alternative of GitHub (HTML, CSS, JS, Python, Flask, MySql). Link to Project / GitHub**. (04/2022 - fi2/2022)**
- **cbse-result-finder:** A Bot that automates the process of finding results of CBSE Board (Python, Selenium). Link to GitHub**.**
- **codein:** Clone of LinkedIn (HTML, CSS, Bootstrap, JavaScript, Python, Flask, Postgresql). Link to Project / GitHub**. (05/2023 - 06/2023)**
- **Attendance App:** A Flutter-based mobile app that uses Bluetooth to mark attendance without internet. It's cross-platform, user-friendly, and ideal for offline environments. Link to GitHub**. (09/2023 - 02/2024)**
- **binarycss:** A lightweight, modern CSS framework I built for my own projects that's now ready to share with the world. Responsive, clean, and no unnecessary bloat. Link to Project / GitHub**. (04/2025 - 06/2025)**
- **daamusic:** A lightweight Python CLI to stream YouTube music using `mpv`, built as a PBL (Project-Based Learning) project for the DAA (Design and Analysis of Algorithms) course. Link to Project / GitHub**. (02/2025 - 06/2025)**
- **dochost:** DocHost, a PBL project on Virtualization and Cloud Computing and a self-hosted web app that works like Google Drive, but stores your files directly on your own hard drive. It gives you complete control over your data with a familiar, cloud-like interface—without relying on third-party storage. Link to Project / GitHub**. (04/2025 - 06/2025)**
- **kaalpass:** A secure, time-based solution that automatically changes your Linux system password daily and syncs it with an Android app for convenient access. Link to Project / GitHub**. (05/2025 - 06/2025)**
- **ilearn-eslide-downloader:** Tool that extracts and downloads password-protected iLearn eSlides from GEHU. iLearn eSlide Downloader is a browser extension that helps students securely unlock and download password-protected PDF slides from the iLearn portal at GEHU. Link to Project / GitHub**. (06/2025 - 06/2025)**

Others

- **Completed Hacktoberfest 2023**: Completed Hacktoberfest 2023 before 16th of October. Link to LinkedIn Post**. (fi0/2023)**
- **Gold Award**: Winner at CodeNova [Coding] Round organized by TechGeeks Club, GEHU, Haldwani. Link to Certificate**. (08/2023)**
- **Volunteer**: Volunteer at the Engineer X 2.0 organized by Tech Geeks during 17-21 September 2024. Link to Certificate**. (09/2024)**
- **Hackathon Participation Certificates**:
  - **24 Hour Hackathon** at GEHU, Haldwani. Link to Certificate**. (fifi/2024)**
  - **Build for GEHU 2025 (24hr) Hackathon** at GEHU, Bhimtal. Link to Certificate**. (04/2025)**
  - **TechSprint (48hr) Hackathon** at GEU, Dehradun. Link to Certificate**. (04/2025)**
